## Marijuana Penalties to Be Lighter

WASHINGTON (AP) — The Nixon administration, with a bow to its own medical specialists and the realities of enforcement, is proposing much lighter penalties for possession of marijuana.

John E. Ingersoll, director of the Bureau of Narcotics and Dangerous Drugs, said on the eve of his testimony today before the Senate juvenile delinquency committee, first-time possession of marijuana should be a misdemeanor, not a felony as the law now stands.

The administration's new proposal, which backs off considerably from the more stringent recommendations made in September by Atty. Gen. John N. Mitchell, sets the maximum sentence for first-time possession at a year in jail, or a \$5,000 fine, or both.

The proposal also calls for considerable discretion on its part of the judge allowing him to impose lesser sentences, or none at all.

Currently, the law provides a jail sentence of two to 10 years for a first-time possession conviction. A second offense results in a mandatory 5 to 20-year jail term.

The new proposal would make a second conviction a felony with penalties of up to two years in prison and a \$10,000 fine, with comparably higher sentences for marijuana sellers.

## American Motor Co. to Buy Kaiser Jeep

DETROIT (AP) — American Motors announced today it has agreed to buy Kaiser Jeep Corp. for \$80 million.

The agreement was announced jointly by AMC and Kaiser Industries Corp.

The agreement calls for payment of \$10 million in cash, \$10 million in AMC's negotiable five-year notes and 5.5 million shares of American Motors Capital stock which is currently selling for about \$11 a share. The \$10 million in negotiable notes is subject to adjustment following an audit of Kaiser Jeep, AMC said. A definite agreement on the purchase is being written, AMC said, and will be subject to approval by board of directors of both firms.

"American Motors and Kaiser Jeep manufacture noncompetitive product lines with complementary management and dealer organizations," the AMC announcement said. "American Motors produces a board line of passenger vehicles in a wide range of price classes, and Kaiser Jeep specializes in the manufacture of a line of four-wheel drive pleasure and utility vehicles and heavy duty military and government vehicle.

## Miami Trying to Drive Out Mafia Members

MIAMI (AP) — An aide says Atty. Gen. Earl Faircloth has drafted 21 civil court actions aimed at driving the Mafia out of the multimillion-dollar resort business in the Miami Beach area.

Richard Knight, a member of Faircloth's staff, said the attorney general would personally file the suits today—invoking a new state law in an attempt to "close the places down or allow us to substitute legitimate people."

## Showers Are Predicted for Arkansas

By THE ASSOCIATED PRESS  
The fair weather which Arkansas has been enjoying the past few days was expected to end today as showers were expected to move into the state from the northwest.

Tropical Gulf storm Laurie was moving slowly northward bringing increased moisture toward Arkansas. Low clouds and some rain from this storm were expected to reach Southeast Arkansas by late this afternoon.

Lows tonight are expected to be in the 60s.

Highs Sunday ranged from 77 at Fayetteville to 86 at Texarkana.

Overnight lows included 52 at Fayetteville, 54 at Little Rock, 58 at Fort Smith, 60 at Pine Bluff, El Dorado and Blytheville, 61 at Texarkana, 62 at Harrison and 64 at Memphis.

No measurable rainfall was reported in Arkansas for the 24-hour period ending at 7 a.m. today.

## Functions of Grand Jury Discussed

A comprehensive view of the Grand Jury, its purpose and its function was the program which Al Graves, Jr. presented to the Hope Rotary Club last Friday at the club's weekly luncheon meeting in the Town and Country. Clyde Fouse arranged the program and introduced the speaker.

Usually the Grand Jury of today is a mere formality, and in most cases the Prosecuting Attorney handles this kind of work. The operation of a Grand Jury is expensive and those serving on it must meet the highest qualifications.

Such was the case when 16 men met for the recently completed Grand Jury session. Though rumors ran rampant about matters under consideration, these jurors took their civic responsibility seriously, respected the right of confidences, and rendered a valuable service to their fellow citizens.

President Benny Coleman had charge of the business meeting and welcomed two visiting Rotarians, John T. McFae of Prescott and Louis Hartung of San Antonio, and one guest, Warren Plyler.

## Accuses WR Overspending Deliberate

LITTLE ROCK (AP) — Gov. Winthrop Rockefeller's administration has been accused of intentionally spending more money than was available in state revenue. "Primarily for the purpose of gaining political advantage . . ."

House Speaker Hayes C. McClellin leveled the charge Saturday while speaking at a Democratic party platform drafting committee meeting.

## Rail Safety Study Is Started

By MARK BROWN  
Associated Press Writer

WASHINGTON (AP) — Spurred by the "new and catastrophic potential for death and destruction" in train wrecks, the Nixon administration has proposed the first comprehensive federal railroad safety legislation.

Sending the recommendations to Congress, Transportation Secretary John Volpe last week cited "a steadily rising trend" in rail accidents, many involving shipments of hazardous poisons and explosives.

"Existing rail safety statutes are inadequate to enable the government to respond to the problem," Volpe said, noting that—in an abrupt about-face since last spring—the railroads themselves now seem to agree.

Unlike airlines and trucks, railroads thus far have escaped any sort of comprehensive minimum safety standards set by the government, despite attempts in the past to pass such legislation.

The proposal itself does not outline specific safety measures, rather it would permit the secretary of transportation to draw up regulations setting minimum standards for, among other items, tracks, rolling stock and loading procedures.

The administration bill, writely, from the report of a task force composed of railroad management, labor and government representatives, is the third such safety measures to be introduced this year.

Sens. Vance Hartke, D-Ind., and Abraham A. Ribicoff, D-Conn., have introduced their own bills—both of which remain in committee.

Since 1964, derailments of trains carrying hazardous materials have forced the warlike evacuation of more than 40 American communities.

Train accidents have increased from 4,149 in 1961 to 7,294 in 1967, up 75.8 per cent. Train accidents exceeded 8,000 in 1968.

## Kennedy Case Hearing Is Resumed

WILKES-BARRE, Pa. (AP) — Twice delayed by legal attacks from Mary Jo Kopechne's parents, a hearing opens today on a petition to exhumate for an autopsy the body of the pretty secretary who died this summer in Sen. Edward M. Kennedy's car.

The hearing, expected to last three to five days, is before Judge Bernard C. Brominski of Common Pleas Court.

The petition for exhumation was filed Aug. 14 by Dist. Atty. Edmund Dinis of New Bedford, Mass., who says the condition of the body when it was found "may or may not have been consistent with death by drowning."

## Storm Laurie Could Become a Hurricane

NEW ORLEANS (AP) — Tropical storm Laurie whistled across the Gulf of Mexico today, aiming for Louisiana's vulnerable coastline. The Weather Bureau said the storm might become a hurricane.

Laurie developed from a depression off the Yucatan Peninsula and raced across nearly 250 miles of open gulf Sunday, its winds still below hurricane force at an estimated 50 miles per hour.

An Air Force reconnaissance plane reported early today the storm was still poorly organized and had shown but little movement for hours.

At 5 a.m. CDT, Laurie was near Latitude 24.7 north and Longitude 91.4 West, or about 360 miles south-southwest of New Orleans. The storm was expected to move north-northwest at about 10 m.p.h.

The Weather Bureau advised that "intensification is likely and Laurie may reach hurricane force" by early today.

The storm spun squalls extending 150 miles from its center and brought on a hurricane watch from Galveston, Tex., to Pensacola, Fla., all along that portion of the southern United States so often battered by Gulf tempests.

## Pancake Supper Prior to Hope, Magnolia Game

Pancakes and Football, that's the deal for this Friday evening. The local Kiwanis Club will be serving hot pancakes, butter and syrup, with sausage, and milk or coffee in the Hope High School Cafeteria, beginning at 5, and the Hope Bobcats will meet the Magnolia Panthers in Hammons Stadium at 7:30.

The pancake supper is one of two annual projects promoted by Hope Kiwanis Club to provide funds for their Youth Activities. Through the Pancake Supper in the Fall and the Kiwanis Variety Show in the Spring the local Kiwanis Club has provided in excess of \$30,000 for its Youth Programs over the last twenty odd years.

The citizens of this area have been very generous in their support of Kiwanis projects in Hope and each member of the local club is most appreciative of this support.

## First Kidney Transplant Dies

POCAHONTAS, Ark. (AP) — The first person to receive a successful kidney transplant at the University of Arkansas Medical Center in Little Rock died Sunday, more than five years after the surgery.

A spokesman said R. V. Rogers, 42, of Pocahontas died at a Pocahontas hospital after suffering a heart attack.

azine, Nixon has been urged by his military advisors to proclaim a U.S.-initiated cease fire so enemy violations could be used "as evidence of the enemy's reluctance to end the war."

The advisors feel, the magazine said, a unilateral cease-fire require a complete withdrawal of U.S. troops in the field."

The White House source said Nixon could be expected to announce such a cease-fire during his Vietnam address or, by not mentioning it, signal to Hanoi the idea has been rejected.

The President conferred at the Maryland retreat with Secretary of State William P. Rogers, Secretary of Defense Melvin R. Laird, Atty. Gen. John N. Mitchell and his national security advisor, Dr. Henry A. Kissinger.

Humphrey said when he talked about troop withdrawals with Nixon he had "encouraged the President to give it all possible support on the executive level."

In Washington, Sen. Fred Harris, chairman of the Democratic National Committee, called for speeded up troop withdrawals and Sen. Edmund S. Muskie, D-Maine, said United Nations Secretary-General U Thant should negotiate a political settlement of the war.

Harris spoke on the NBC radio-television program "Meet the Press" and Muskie appeared on ABC's "Issues and Answers."

Harris said Nixon has acknowledged the war can't be won militarily and added that the President "ought to get about getting us out of it on a much more rapid and systematic basis."

Muskie said U Thant would be "a natural" to get the Saigon government and the National Liberation Front—political arm of the Viet Cong—together on a coalition government for South Vietnam.

And Sweden's new prime minister, Olof Palme, in an interview Sunday, defended his country's humanitarian aid to North Vietnam and asserted that in the South "the NLF at present is more representative of the aspirations of the Vietnamese people than the junta in Saigon."

The prime minister was interviewed in Stockholm for the CBS program "Face the Nation," broadcast Sunday from Washington.

## Court to Hear Case of Draft Challenge

WASHINGTON (AP) — The Supreme Court agreed today to hear another challenge of the draft—the one claiming that the provision of continuing registration requires self-incrimination by those who refused to register initially.

The petition, filed on behalf of Robert L. Toussie, a 28-year-old Brooklyn business tycoon, also contends that without the continuing registration requirement the federal five-year statute of limitations would apply, beginning with a youth's 18th birthday.

Toussie was convicted in a federal district court in New York City in 1967 of failing to register for the draft. He admitted refusing to register and said he could not do so for reasons of conscience.

The Supreme Court is being asked to apply its 1968 Marchetti decision — which held that gamblers could not be prosecuted for refusing to register and to incriminate themselves to the continuing registration provision of draft regulations.

The government contends that, although the draft statute does not spell out the continuing offense, it was the intent of Congress, as ruled by the district court.

This is the third major attack on draft laws and rules which the court has agreed to hear this session. The court already is considering suits challenging the right of draft boards to order priority induction of war protesters and contending that conscientious objection to the draft may be based on grounds other than religion.

## HELEN HELP US!

## HE RIDES AGAINST THE CROWD

Dear Helen: I've always lived near my work, so I never needed a car. About two years ago I moved about two miles out of town in another state and found it easy to bicycle to town for my needs, several times a day if I so desired.

When I take trips, I fly, boat, bus or taxi and am more relaxed because I'm not watching the road constantly. Certainly I can afford to pay cash, even for a Rolls Royce, but I just don't care to drive.

So what's this thing about cars most everyone has? Some people will actually make an issue over my "deprivation." I'm not exactly the village idiot. Other non-drivers I've met aren't stupid either. Yet we're looked upon as somewhat simple, especially if I choose to shop by bike.—ART

Dear Art: Not by me, you aren't!

I think you're a healthy, happy individualist. Stay that way! —H.

Dear Helen: A word of cheer for the teen-ager whose mother is a hopeless alcoholic. Her letter could have been written by me many years ago.

I am now age 50; my mother still calls regularly and we attempt a conversation through her drunkenness. I was never able to help her. To this day she doesn't admit she drinks. During the early years of my marriage, I felt so inadequate and inferior that I too thought I would crack up. But I found an older friend whose

Halloween party and luncheon Oct. 16 at the Douglas Building, with 18 members and one new member, Mrs. Harvey Southward present. The center piece on the table was an arrangement of yellow roses.

Mr. Marrian Waterman returned thanks. There was plenty of delicious food. After lunch the president Mrs. Ola Smith opened the meeting with all repeating the lords prayer. The roll was called and minutes of the last meeting read and approved. Mrs. Southward gave a talk on making ceramics, which the group plans to do later on.

Dominoes was played. Mrs. Eva McKinney won the door prize. Nov. 6.

## Television and Radio

By CYNTHIA LOWRY  
AP Television-Radio Writer  
NEW YORK (AP) — Frank Sinatra Jr. opened his CBS special Sunday night singing from inside a giant slipper that swings high over a Las Vegas entertainment palace. He closed it singing from the turret roof of another.

In between, the young man led the viewers on an impressive tour of the Nevada city and its environs. It was a crowded hour.

The Doodletown Pipers sang a number crawling on the desert and splashing in a fountain pool. Sammy Davis Jr. and a chorus danced around the Hoover Dam — perhaps the world's largest backdrop. Nancy Sinatra sang while wandering amid flashing neon signs. Young Sinatra rode a dune buggy while singing and poised dangerously at the top of some desert rocks. Frank Sinatra Sr. joined his son in a number.

The show used all sorts of camera tricks, from wild optical effects to slow motion. There was even an aerial ballet—to music—by the precision flying team of the U.S. Air Force.

In all this, the star of the show, a quiet-mannered fellow with a pleasant but hardly electrifying voice and presence,

seemed lost. The show made some stabs at comedy, with bits by Arte Johnson of "Laugh-In," Jack Leonard, and Jack Benny. None of it worked well and was the weak spot in the hour.

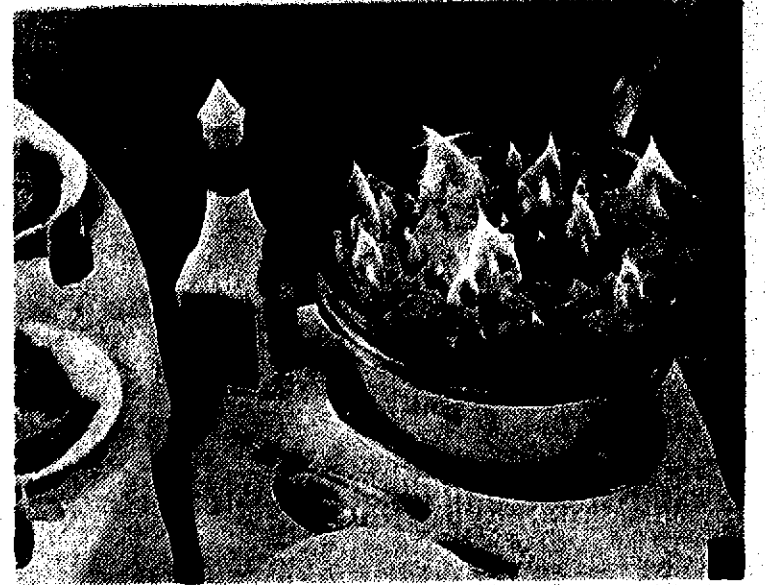

"The Advocates," a new, live series Sunday nights on a national hookup of educational stations, this week debated whether Congress should pass the Goodell bill to require withdrawal of U.S. troops from Vietnam in 14 months.

No one-hour program could handle the enormously complex question in much depth or with great effect. This program's format works against satisfactory exploration of pros and cons. It is a strange combination of debate, interview and cross-examination, all broken into short segments.

Both sides had film clips showing the atrocities of war. There were interviews with Sen. Charles Goodell stating his case. Sen. Barry Goldwater was interviewed on his position. Advocates pressed positions on the President's right to conduct foreign policy and Congress' right to declare war. A pair of professional experts presented diametrically opposite points of view on the Vietnamese. There were even reports on polls and sampling of public opinion.

Greeks, Persians, Phoenicians and Romans associated eggs with the waking earth.

## Swiss Can't Miss

From Switzerland, a new idea in desserts, Crepes Cheri-Suisse.

The ultimate in sophisticated desserts is crepes, those tiny little pancakes so favored in continental cuisine, flambéed at tableside or brought flaming to the table. An epicurean version is crepes Cheri-Suisse. Preparation is simple, results elegant.

## CREPES CHERI-SUISSE

1/4 cup sweet butter	6 tablespoons Cheri-Suisse Liqueur
1 orange	1/4 cup (2 ounces) Brandy
1/4 cup (2 oz.) confectioners' sugar	

For about 1 dozen crepes, cream together confectioners' sugar and sweet butter. Grate outside part of orange peel, add to mixture, stir in the juice of the orange and 3 tablespoons Cheri-Suisse chocolate-cherry liqueur. Place all in a hot electric skillet or chafing dish and heat until it bubbles and reduces slightly. Using a fork and spoon, dip each crepe into the hot mixture, fold in quarters and put to one side. Sprinkle all the crepes with a little confectioners' sugar, add 3 more tablespoons Cheri-Suisse and the brandy to the remaining flavored butter in the pan. Light the liquid and serve.

## Fairview Put It All Together

By RALPH ROUNTON  
Star Sports Writer

Fairview's Cardinals put everything together last Friday night, and in the process polished off the Hope Bobcats 29-0 in a 4-AA Western Divisional game before a large crowd at Tate Field in Camden.

High school teams usually come up with a peak performance once or occasionally twice a season, but Fairview happened to do it at the right time, in a big battle against a game 4-AA West opponent.

They made the Hope team look bad, but mainly the margin of victory was due to the fact that the Cardinals could do no wrong whatsoever. Compare last Friday's game, if you will, with the Arkansas-Oklahoma State game of a month ago.

That Saturday the Razorbacks opened the season by doing most everything right when it counted, and beating a potentially great Oklahoma State team 39-0. OSU proved those raves to be true, too, when later they defeated nationally-ranked Houston and Texas Tech of the Southwest Conference.

All the difference is in how the Hope squad reacts to the loss in this week's showdown at home with the Magnolia Panthers. Last year the Bobcats barely missed the upset of the year and lost 20-14 to Fairview, then came back low and got canned 41-0 in the Panther Pit at Magnolia.

A team embarrassed as Hope was at Fairview this year and at Magnolia last year doesn't forget the horrible feeling, and will do anything to prevent its recurrence.

Bobcat Coach Ronnie Higgins should have no problems in getting the team ready for this Friday, if they want to come back.

Just like after the opening loss at Ashdown, the Cats have two alternatives. They can let all the work and the 5-2 record go down the drain along with hopes for a return to winning tradition at Hope, or the players can "suck it up" and prove themselves all over again against five beatable but tough opponents.

As to the race in 4-AA West, you seriously wonder if Fairview could get that high again in an important battle two weeks hence at Arkadelphia. The Cards could win that one and win the division, but don't count on it. And in that case, the Hope-Arkadelphia date on the season's final day (November 21) would give the Cats a shot at winning for a tie in the title race.

Hope must start over now with Magnolia and then a Camden team humiliated 27-6 last Friday at Crossett. With those two, the Bobcats might make it back. Magnolia, though, had last week off after losing 25-8 at Arkadelphia for a 4-2 record.

And the Bobcats can register it now that the Magnolia Panthers have beaten Hope teams the last four years by a total score of 111-0. Their mission is to do something about that.

## Rams Gobble Downfall of Green Bay

By ED SCHUYLER JR.

Associated Press Sports Writer  
Bruce Gossett kicked two field goals for the Los Angeles Rams, but it's the one he didn't try that really put the boot to the Green Bay Packers.

Los Angeles had the ball on the Green Bay 11-yard line Sunday with six seconds left in the first half—in position for an almost certain three points for a kicker of Gossett's ability.

So, quarterback Roman Gabriel shunned a field goal try and whipped a touchdown pass to Wendell Tucker, which gave the Rams a 27-14 lead en route to a 34-21 National Football League victory.

The victory gave the Coast Division-leading Rams a 5-0 mark and knocked Green Bay, 3-2, out of a first-place tie with Minnesota in the Central Division.

In other NFL action, Minnesota, 4-1, beat St. Louis, 2-3, 27-10; Washington, 3-1-1, edged the New York Giants, 3-2, 20-14; Dallas, 5-0, trounced Philadelphia, 1-4, 49-14; Baltimore, 3-2, blasted New Orleans, 0-5, 30-10; and Atlanta, 2-3, stopped San Francisco, 0-4-1, 21-7. Cleveland 4-1, outlasted Pittsburgh, 1-4, 42-31, Saturday night.

Oakland drubbed Buffalo 50-31, Denver topped Cincinnati 30-23, Kansas City upended Miami 17-10 and San Diego nipped Boston 13-10. Houston is at the New York Jets tonight.

"It was a bonus for us to get seven points," said Los Angeles Coach George Allen of Gabriel's clutch touchdown pass in the first half. "I think we would have settled for three."

So would the Packers, who had built momentum by scoring touchdowns on passes from Bart Starr to Boyd Dowler and Elijah Pitts after the Rams had built a 20-0 lead. The 34 points—most against Green Bay since 1961—came on Gabriel's pass to Tucker, a 51-yard bomb to Les Josephson, two short Gabriel runs and Gossett's field goals.

Gabriel completed 17 of 28 passes for 197 yards and has yet to be intercepted this season. His scoring strike to Tucker was his 1,012th completion, breaking the Los Angeles career record held by Norm Van Brocklin.

Joe Kapp fired three touchdown passes and rugged defense held St. Louis scoreless in the second half in Minnesota's fourth straight victory. John Henderson caught two of Kapp's scoring strikes and John Beasley one.

Rickie Harris' 86-yard touchdown run with a punt got Washington past New York and knocked the Giants out of a first-place tie in the Century Division. Charley Harraway's one-yard and 15-yard runs produced the other touchdowns for the Redskins, who remained in Capitol Division fight with Dallas.

Dallas crushed Philadelphia with 42 points in the first half. In that half, Craig Morton completed 12 of 16 passes, including 10 in a row, for 225 yards and five touchdowns. Lance Rentzel scoring three scoring tosses and Bob Hayes and Pettis Norman one each.

Johnny Unitas was too much for New Orleans, passing for 319 yards and three touchdowns—two to Willie Richardson, Tom Mitchell and Ray Perkins.

Unitas threw 16 straight pass completions to set a league record, surpassing the former mark of 13 held by Fran Tarkenton, then of Minnesota, against Los Angeles Dec. 3, 1961.

Atlanta beat San Francisco for the second time this season, the second, and clinching, touchdown coming on rookie safety Jim Weatherford's 74-yard dash with a recovered fumble.

Detroit rode two Errol Mann field goals and a 12-yard touchdown pass to Johnny Wright from Greg Landry, starting his first game of the year, to its victory over hapless Chicago. Rookie quarterback Bobby Douglass passed 32 yards to Bob Wallace for the Chicago touchdown.

The victory was costly, however, for the Lions, who lost halfback Mel Farr for the season with a knee injury. A spokesman said that Farr apparently tore ligaments in his right knee. He was scheduled to undergo surgery today.

## Commission Backs Cost

## Southern Cal Couldn't Win Over Irish

By HERSCHEL NESSESON

Associated Press Sports Writer  
Ohio State apparently is the real McCoy as far as college football teams go...but Notre Dame's McCoy was a little too real for Southern California.

The Buckeyes of Ohio State, who leave little doubt from week to week who's No. 1, kept rolling along Saturday with a 34-7 victory over Minnesota.

But the big game of the weekend matched third-ranked Southern Cal and 11th ranked Notre Dame at South Bend, Ind., and it would up in a 14-14 standoff when McCoy, a 274-pound defense tackle, blocked a punt midway through the final period to set up the tying touchdown.

Second-ranked Texas and Arkansas, rated fourth, had the week off. Penn State, No. 5, barely got by fired-up Syracuse 15-14 and had to score all its points in the fourth quarter to do it.

Missouri, ranked sixth, beat back stubborn Oklahoma State 31-21, seventh-ranked Tennessee trounced No. 20 Alabama 41-14—giving Bear Bryant two negative records—and UCLA, No. 8, drubbed California 32-0.

Louisiana State, rated ninth, rolled over Kentucky 37-10 while Florida, No. 10, posted North Carolina 52-2 behind John Reaves' four touchdowns passes. Chicago 0 2 5 0 0 6 21

"It seems all we do is play ties with the Irish," muttered Southern Cal's John McKay and the teams battled to their second consecutive deadlock.

"We just didn't play well. Our offense let us down, or maybe it was Notre Dame's defense," he added after the Irish held Jim Jones to 11 pass completions for 116 yards and Clarence David to 75 yards in 30 carries.

McCoy burst through to block John Young's punt with Notre Dame trailing 14-7 and Walt Patulski recovered at the Trojans' six. Denny Allan scored from the one with 6:54 left and Scott Hempel kicked the tying point.

Hempel almost won it in the final two minutes with a 48-yard field goal attempt that hit the crossbar and bounced back. Besides his blocked punt—"I think I blocked it with my head," he said—McCoy was in on 14 tackles.

"It was a helluva football game and no place for the time," said ND's Ara Parseghian. "We're going to play a good football game," said Minnesota's Murray Warmath before his date with Ohio State. But the Gophers fumbled the ball away five times, lost it once on an interception and were halted five times inside the Buckeye 20.

Penn State, its 23-game unbeaten string less than 10½ minutes away from being broken, rallied for two quick touchdowns—helped by a fumble, two key penalties and a short punt—and edged Syracuse. Franco Harris ran for a two-point conversion after Lydell Mitchell's four-yard touchdown plunge and then scampered 36 yards to tie the score before Mike Reitz kicked the decisive point.

Missouri also used the breaks to its advantage, turning a fumble, interception and short punt into two touchdowns and a field goal to defeat Oklahoma State.

Quarterback Bobby Scott's passing, the running of Curt Watson and Don McLeary and the fierce linebacking of Steve Kliner and Jack Reynolds helped Tennessee beat Alabama for the third time and hand the Crimson Tide its second consecutive setback—neither of which had ever been done to a "Bama team under Bear Bryant.

Dennis Dummitt's two touchdowns passes to Gwen Cooper started UCLA off and running against California. Three quarterbacks directed ISU to 489 yards against Kentucky. And super soph John Reeves ran his record to 15 touchdown passes in five games as Florida mauled North Carolina.

Among the Second Ten, Steve Owens barreled for four touchdowns as 12th-ranked Oklahoma outlasted Colorado 42-30. Michigan State's offensive line opened the holes for Bill Triplett and Don Highsmith and a 23-12 triumph over arch-rival Michigan.

## Bear Bryant Critical of Some Fans

BIRMINGHAM, Ala. (AP)—"We'll lose all the faint hearted fans now," Coach Paul "Bear" Bryant of Alabama said Sunday, "but I'm not ready to give up and I hope our team isn't either."

Bryant, narrating televised films of Tennessee's 41-14 victory over Alabama Saturday, said critics already are writing him about the Alabama team which now has lost two straight games for the first time under Bryant.

"You letter writers—to hell with you," Bryant said. "I don't have time to read your letters now or even sort them. 'We've just got to get busy.'"

## Alcindor Is Factor in Team's Win

By BOB GREENE  
Associated Press Sports Writer  
MILWAUKEE (AP)—Lew Alcindor says he's learning something new every night, but he hasn't forgotten how to win.

The 7-foot-2 former UCLA three-time All-American led the Milwaukee Bucks to a 130-106 shell of the Seattle Super-sonics Sunday night in the only National Basketball Association game on tap.

The Bucks also won Saturday afternoon, 119-110, over the Detroit Pistons in their season opener.

Against Seattle, Alcindor grabbed 11 rebounds, handed out five assists, blocked an equal number of Seattle shots and scored 19 points before fouling out with 5:47 remaining in the game.

"I think it's coming along," the elongated rookie said of his play. "I still have a lot of things to learn, however, especially the little things like when to switch (on defense)."

The main firing power in the Milwaukee arsenal — Alcindor and guards Flynn Robinson and Jon McGlocklin — shot the Bucks out to a 13-6 advantage to start the game. A 14-2 burst by Milwaukee turned the game into a rout.

The Bucks led at the end of the first stanza 41-23, and at halftime 79-47. In the third period, Milwaukee scored only eight points in seven minutes, but held a 103-76 advantage as the final quarter began.

Robinson finished with 22 points and McGlocklin 17 as seven Bucks wound up in double figures. Game honors went to Seattle's Bob Boozer with 26.

Seattle center Bob Rule didn't see action because of a sprained wrist suffered Saturday night against Chicago.

"The pros force you into fouls," Alcindor said. "They jump into you, and most of the time the officials call it against the defense."

Saturday afternoon, making his regular season NBA debut, Alcindor scored 29 points, hauled in 12 rebounds and blocked three shots against the Pistons. Yet, he was dissatisfied with his play.

"I am still adjusting" to NBA play, he said. "I have to find out what is a foul, and what

isn't."

With Alcindor, Milwaukee is 2-0 and has out-rebounded its opponents 128-84.

In other NBA games Saturday, Baltimore turned back Boston 124-117, New York outlasted Los Angeles 99-96, Atlanta downed Phoenix 121-116, Philadelphia topped Cincinnati 134-123, Chicago defeated Seattle 131-126 in overtime and San Diego edged San Francisco 125-124 in overtime.

In the American Basketball Association Sunday, Pittsburgh squeezed by Los Angeles 105-101, Dallas tripped New York 102-92 and New Orleans got by Denver 109-103.

Veteran Charlie Williams scored 29 points and rookie Gary Raymond had 22 as Pittsburgh, which lost eight of nine exhibition games, opened its regular season on the right foot.

New York wasted a seven-point halftime lead on cold third-period shooting—two of 22—and bowed to Dallas as Glen Combs scored 38.

The Jones boys proved too much in New Orleans' victory over Denver, accounting for 55 points between them. Jimmy hit for 28 and Steve 27 to offset Spencer Haywood's game high of 30 for Denver.

Saturday it was Los Angeles 126, Indiana 123; Miami 110, Kentucky 106; Carolina 108, Dallas 97 and Washington 110, New Orleans 104.

## Hawaii's Next Stop May Be Washington

By ED SCHUYLER JR.  
Associated Press Sports Writer  
The Washington, D.C., International should be the next stop for Hawaii.

The 5-year-old South African-bred, owned by American Charles Englehard, virtually clinched the 1969 turf championship Saturday by winning the \$113,300 Man O' War Stakes at Belmont Park in a course-record 2:27 1-5 for the 1 1/2 miles.

Several members of the American Selection Board which picks the horses for the International to be run on the grass Nov. 11 at Laurel, watched the Man O' War and were convinced Hawaii should be in the International.

An invitation is expected to be extended and accepted some time this week. It is understood Hawaii would represent the United States.

Another U.S. representative could be Gene Goff's Nodouble, although he is not known as a grass runner. Nodouble won the \$124,280 Hawthorne Gold Cup Saturday for his fourth victory this year in a \$100,000 race.

In two other big races, Dixiana Farm's Hard Work won the \$62,725 Breeders Futurity at Keeneland and Mrs. Howard B. Keck's Tell took the \$57,000 Volante Handicap for 3-year-olds at Santa Anita.

Hawaii, ridden by Jorge Velasquez overtook Mrs. Henry Obre's North Flight and won by a handy 2 1/4 lengths, with Rokeby Stable's Fort Marcy third in the nine-horse Man O' War field.

It was the third straight stakes victory and the sixth win in nine starts this year for Hawaii, who carried 126 pounds to 121 for the 3-year-old North Flight under the weight-for-age conditions.

## Bisons of Harding in Big Upset

By THE ASSOCIATED PRESS  
The Harding Bisons are being likened to the New York Mets and rightly so.

The Bisons, who didn't win a Arkansas Intercollegiate Conference game in 1967 or 1968, knocked off Arkansas A&M Saturday 22-7 to move into a tie with Ouachita and Henderson for league lead.

All three have 2-0 conference records and Harding is the only AIC team that is still undefeated. The surprising Bisons have compiled a 4-0-1 record.

Ouachita and Henderson scored victories over non-conference opponents Saturday while Arkansas Tech defeated State College of Arkansas 9-2. The loss left SCA with an 0-2 record in the conference and ended Tech's mark at 1-1-1.

Ouachita whipped Millsaps 23-7 and Henderson edged Florence, Ala., 8-7 in the nonconference action.

Many non-believers felt Harding would get its upance at Monticello, but quarterback Jerry Copeland threw two touchdown passes and ran for one score to spark the Bisons.

Copeland tossed a 13-yard scoring pass to John Manning and an 11-yard TD strike to Ronnie Peacock. A&M took a short-lived lead on Gary Tate's six-yard pass to Bruce Norwood.

SCA got a 2-0 lead on a safety but quarterback John Pirpich's 48-yard touchdown pass to Steve Carter and Bill DePriest's 22-yard field goal gave the Wonder Boys the edge.

SCA penetrated the Tech 10 twice in the first half, but lost the ball on fumbles.

Barry Bennett threw touchdown passes of 57 and 33 yards to Charles Carozza and John Wayne Cunningham, who rushed for 180 yards, scored once to lead Ouachita.

A 27-yard run by Tommy Hart set up Henderson's touchdown, which Jerry Malone scored from the two. Hart then circled right end for the winning two-point conversion. It was Florence's first loss.

Harding and Ouachita play this week's headliner Saturday afternoon at Searcy. Saturday night, Henderson is at A&M, Southern State is at SCA and Tarleton, Tex., is at Tech.

## ASU's Soph Backs Work Over Visitors

LITTLE ROCK (AP) — Arkansas State University's strong sophomore backs worked over Southwestern Louisiana Saturday night as the Indians claimed a 26-0 victory in their annual appearance in Little Rock.

Tailback Calvin Harrell, quarterback James Hamilton and fullback Marshall Walls are all in the 200-pound category.

Hamilton, who set an ASU career passing record early in the game, scored one touchdown and set up three other scores.

Harrell, who led all rushers with 106 yards on 28 carries, scored two touchdowns on short runs.

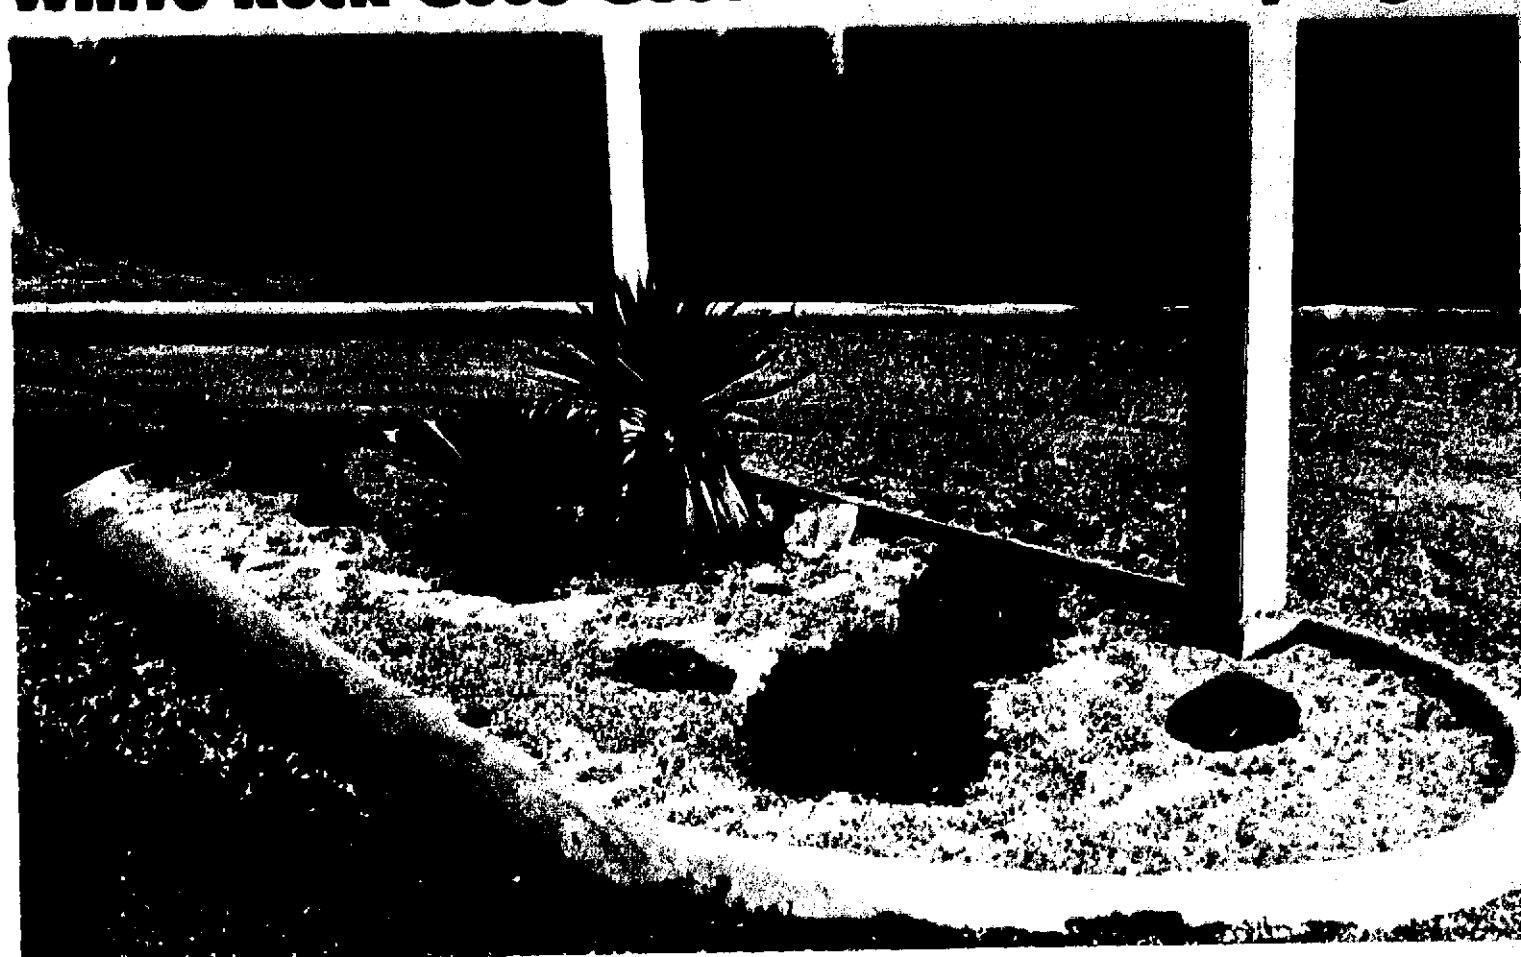

And, Walls, who averaged more than five yards a carry, led the blocking for both Hamilton and Harrell.

Southwestern Louisiana dominated the first quarter, but ASU gained control, putting 16 points on the scoreboard in the second quarter.

Horse Latitudes

The term, horse latitudes, is said to have originated in the early days when wind-jammers sailed the Atlantic. The calms and heat of the area killed cargoes of horses which were frequently transported.

## White Rock Goes Good With Landscaping

Interest in the use of white rock in landscaping has increased during the last three or four years. Shown above is an area that has been landscaped at the Hope Country Club. ## Great Figure by Name of Gordie Howe

41-23-800. That's a great figure—a great hockey figure, by the name of Gordie Howe.

The 41-year-old Howe, now in his 23rd National Hockey League season, scored his 800th goal, counting regular season and playoff games, Sunday night and helped the Detroit Red Wings beat the St. Louis Blues 4-2.

Trailing 3-2 with 41 seconds left and a Detroit player in the penalty box, St. Louis pulled goalie Jacques Plante in favor of an extra-skater in a bid for a tie. But Howe spoiled the strategy by stealing the puck and scoring into an empty net.

In other NHL games Sunday, Philadelphia tied Montreal 1-1, New York edged Toronto 1-0, Minnesota topped Chicago 4-1 and Boston bashed Pittsburgh 4-0.

Detroit built a 2-0 lead on first-period goals by Pete Stenkowski and Gary Bergman. Bill McCrery tallied for St. Louis in the first period, and Roy Anderson tied it for the Blues in the third. Then Nick Libett scored the winning on a power play.

Jean-Guy Gendron's 20-foot shot with 1:01 left in the game got Philadelphia its tie with Montreal. The Canadiens had taken a 1-0 lead on Marc Tardif's goal at 8:45 of the third period.

Vic Hadfield scored on a power play at 7:33 of the first period and goalie Ed Giacomin made it

## 3 Arkansas Golfers in the Money

LAS VEGAS, Nev. (AP) — Richard Crawford of Bella Vista, Ark., had one of his best tournaments as a professional golfer Sunday, finishing seventh in the \$100,000 Sahara Invitational golf tournament.

Crawford shot a final round 69 for a 279 total and collected \$3,200. He shot 70-72-68 the first three rounds. R. H. Sikes of Springdale closed with a three-under-par 68 for a 282 total, good for \$1,035. Miller Barber of Texarkana won \$770 for his 283 score, which included a final round 69.

stand up for New York's victory over Toronto.

Minnesota sent winless Chicago to its fifth straight defeat on two goals by Danny Grant and one apiece by Bill Collins and Bill Goldsworthy. Eric Nesterenko scored for Chicago.

Gerry Cheevers notched his second shutout in two starts in Boston's victory over Pittsburgh. Fred Stanfield scored for Boston in the first period and Wayne Cashman, Bobby Orr and Phil Esposito connected in the third.

Montreal mauled New York 7-3, Toronto topped Chicago 4-1, Pittsburgh tied Boston 3-3, and St. Louis took Minnesota 4-2 in Saturday's game.

Boston, Mass., is known as the "Tre-Mountain City" from the three hills on which it was originally built

HOPE NEWSPAPER HISTORY:  
The 1929 consolidation joined the  
two principal newspaper lines  
dating back to within five years  
of Hope's incorporation in 1875.

1899 — Star of Hope found-  
ed as a weekly by Claude Mc-  
Corkle; converted to an evening  
daily Jan. 1, 1920, by his son,  
Ed. McCorkle, publishing until  
the 1929 consolidation.

The opposition line:  
1880 — Hope News founded by  
Lowry Brothers.

1883 — Sold to Withers & John-  
son, name changed to Hope Tele-  
graph.

1883 — Later in same year  
resold to Claude McCorkle and  
renamed Hope Mercury.

1884 — Sold to James H. Betts,  
who named it Hope Gazette, under  
which name it was published con-  
tinuously until 1922, published by  
Betts, J.L. Tullis, and Col. W.W.  
Folsom the last-named dying in  
1916.

1916 — Purkins & Gates bought  
the weekly Gazette and made it  
a companion paper to their new  
daily, Arkansas Evening Herald  
— but both papers suspended in  
1922.

1926 — Plant was revived by  
Curtis Cannon as the weekly  
Hempstead County Review.

1927 — Cannon sold plant to  
D.A. Gean, who established the  
morning Hope Daily Press.

1929 — C. E. Palmer and A.H.  
Washburn consolidated The Star  
and the Press as Hope Star, with  
Palmer as president and Wash-  
burn secretary-treasurer.

1957 — Following Mr. Pal-  
mer's death Mrs. Palmer be-  
came president.

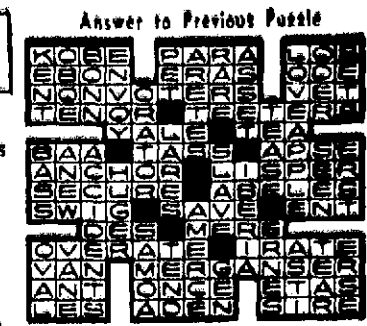

1969 — With Mrs. Palmer's  
retirement from Star Publish-  
ing Co. Washburn became 76  
per cent owner and president  
— balance 24 per cent being held  
by Texarkana Newspapers, Inc.

## THE WELL CHILD®

### Injuries to the Eye Are Serious Problem

By WAYNE G. BRANDSTADT, M.D.

Accidental injuries to the  
eye are still a serious prob-  
lem. A large proportion of  
them result from the care-  
less handling of BB guns,  
slingshots, arrows, sharp  
sticks, scissors and other  
pointed objects. Teach your  
child never to point a weapon  
at another person and never  
to run while carrying sharp  
objects.

For a burn of the eye,  
whether caused by a flame  
or a chemical, immediate  
flushing with cool tap water  
will minimize the damage.  
This can be done by lowering  
the eye into water held in a  
dish or the cupped hands. It  
should be continued for 15  
minutes, then the eye should  
be seen by a doctor.

If your child must wear  
glasses, you should ask for  
safety lenses. They are tough  
and shatterproof and have  
saved the sight of many per-  
sons who were wise enough  
to use them.

If a speck of foreign mat-  
ter gets in the eye it can  
often be removed by lifting  
the upper lid and pulling it  
gently down over the lower  
lid. If this maneuver and the  
tears do not wash it out,  
flush the eye gently with a  
few drops of lukewarm  
water. If this fails, bandage  
the eye to keep the child  
from rubbing it and let your  
doctor see it.

Often when a child com-  
plains that he has something  
in his eye and the eye is in-  
flamed, he is suffering from  
conjunctivitis. The doctor  
should determine what treat-  
ment is best. Most of the  
above is applicable to per-  
sons of all ages.

Q—I am concerned about  
our granddaughters, 4 and 5.  
They are allowed to sit close  
to their color TV set. Is there  
any danger to their eyes  
from this?

A—Pediatricians have re-  
ported that TV viewing for  
several hours a day may  
cause what has been called

the tired-child syndrome—  
lack of pep, poor appetite,  
fifful sleep and, in some  
cases, vague pains. A series  
of 30 such children were  
denied access to TV and all  
their symptoms cleared up  
in two or three weeks.

Most children may be al-  
lowed TV viewing in moder-  
ation—30 to 60 minutes five  
or six days a week. At best,  
excessive viewing has a  
damaging effect on a child's  
creative ability. Damage to  
his eyes is harder to prove  
but most authorities, to be  
on the safe side, recom-  
mend sitting at least eight  
feet from the screen.

Jim: "What do you think  
of 'How To Play a Better  
Game of Bridge,' the new  
book by Terence Reese and  
Albert Dormer?"

Oswald: "Some of their  
bidding ideas are not in ac-  
cord with the best American  
practice but the section on  
play is excellent. It covers  
all sorts of situations, from  
the simplest to the most dif-  
ficult, in a very lucid and  
entertaining fashion."

Jim: "Let's pick a simple  
one as the first example and  
show a standard elimination  
play."

Oswald: "In an elimina-  
tion play, declarer plays off  
enough cards in certain suits  
so as to eliminate them as  
safe leads for his opponents.  
This will then force the op-  
ponents to lead the suit you  
want led."

Jim: "South wins the  
heart lead and sees that he  
must eventually lose one  
heart and at least two clubs.  
Furthermore, if he has to  
play clubs himself, he may  
have to lose three clubs and  
he can't afford that. There-  
fore, it is up to South to force  
the opponents to lead clubs  
for him."

Oswald: "He does this by  
eliminating all other leads

Q—Which was the first and last city in the United States to use cable cars?  
A—San Francisco.

Q—Why is the John Dory popularly called "St. Peter's fish"?  
A—Each fish has a round, black spot on the middle of its side. A legend says this spot is a thumbmark, left there when St. Peter took a coin from the fish's mouth.

HOPE NEWSPAPER HISTORY:  
The 1929 consolidation joined the  
two principal newspaper lines  
dating back to within five years  
of Hope's incorporation in 1875.

1899—Star of Hope found-  
ed as a weekly by Claude Mc-  
Corkle; converted to an evening  
daily Jan. 1, 1920, by his son,  
Ed. McCorkle, publishing until  
the 1929 consolidation.

The opposition line:  
1880—Hope News founded by  
Lowry Brothers.

1883—Sold to Withers & John-  
son, name changed to Hope Tele-  
graph.

1883—Later in same year  
resold to Claude McCorkle and  
renamed Hope Mercury.

1884—Sold to James H. Betts,  
who named it Hope Gazette, under  
which name it was published con-  
tinuously until 1922, published by  
Betts, J.L. Tullis, and Col. W.W.  
Folsom the last-named dying in  
1916.

1916—Purkins & Gates bought  
the weekly Gazette and made it  
a companion paper to their new  
daily, Arkansas Evening Herald  
—but both papers suspended in  
1922.

1926—Plant was revived by  
Curtis Cannon as the weekly  
Hempstead County Review.

1927—Cannon sold plant to  
D.A. Gean, who established the  
morning Hope Daily Press.

1929—C.E. Palmer and A.H.  
Washburn consolidated The Star  
and the Press as Hope Star, with  
Palmer as president and Wash-  
burn secretary-treasurer.

1957—Following Mr. Pal-  
mer's death Mrs. Palmer be-  
came president.

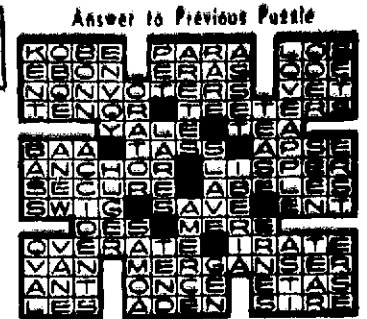

1969—With Mrs. Palmer's  
retirement from Star Publish-  
ing Co. Washburn became 76  
per cent. owner and president  
—balance 24 per cent being held  
by Texarkana Newspapers, Inc.

## THE WELL CHILD

Injuries to the Eye  
Are Serious Problem

By WAYNE G. BRANDSTADT, M.D.

Accidental injuries to the  
eye are still a serious prob-  
lem. A large proportion of  
them result from the care-  
less handling of BB guns,  
slingshots, arrows, sharp  
sticks, scissors and other  
pointed objects. Teach your  
child never to point a weapon  
at another person and never  
to run while carrying sharp  
objects.

For a burn of the eye,  
whether caused by a flame  
or a chemical, immediate  
flushing with cool tap water  
will minimize the damage.  
This can be done by lowering  
the eye into water held in a  
dish or the cupped hands. It  
should be continued for 15  
minutes, then the eye should  
be seen by a doctor.

If your child must wear  
glasses, you should ask for  
safety lenses. They are tough  
and shatterproof and have  
saved the sight of many per-  
sons who were wise enough  
to use them.

Most children may be al-  
lowed TV viewing in moder-  
ation—30 to 60 minutes five  
or six days a week. At best,  
excessive viewing has a  
damaging effect on a child's  
creative ability. Damage to  
his eyes is harder to prove  
but most authorities, to be  
on the safe side, recom-  
mend sitting at least eight  
feet from the screen.

Jim: "What do you think  
of 'How To Play a Better  
Game of Bridge,' the new  
book by Terence Reese and  
Albert Dormer?"

Oswald: "Some of their  
bidding ideas are not in ac-  
cord with the best American  
practice but the section on  
play is excellent. It covers  
all sorts of situations, from  
the simplest to the most dif-  
ficult, in a very lucid and  
entertaining fashion."

Jim: "Let's pick a simple  
one as the first example and  
show a standard elimination  
play."

Oswald: "In an elimina-  
tion play, declarer plays off  
enough cards in certain suits  
so as to eliminate them as  
safe leads for his opponents.  
This will then force the oppo-  
nents to lead the suit you  
want led."

Jim: "South wins the  
heart lead and sees that he  
must eventually lose one  
heart and at least two clubs.  
Furthermore, if he has to  
play clubs himself, he may  
have to lose three clubs and  
he can't afford that. There-  
fore, it is up to South to force  
the opponents to lead clubs  
for him."

Oswald: "He does this by  
eliminating all other leads  
for East and West. He starts  
by drawing trumps. Then he  
cashes the three high dia-  
monds and plays his last  
heart."

Jim: "The best defense is  
for East to win the heart and

declarer. If a low club is led,  
the play of the 10 spot puts  
West in with no winning

Vermont Royster's  
Thoughts On Youth

Browsing through some other papers a few days ago, we ran across a wise statement by the editor of the Wall Street Journal, Vermont Royster, who observed:

"Much of the criticism we level at the young comes from forgetfulness. We too were once rebellious, deploring the times and a world we never made. The fathers of this generation were the ones who started the sexual revolution, who in gin mills and speakeasies and the divorce courts kicked first at the moral traces whose disappearance they now lament. And however rightly we may disapprove of things done on the fields at Woodstock, can we say truly we wouldn't have been there, were we one and twenty?"

Ouch! Of course, Mr. Royster brings it all back into balance at the end of his article in which he concludes: "What nags at you is not the complaints of the young against the old, but the thought that life is going to catch up. And then what will their children say of them?" — Lexington (Ky.) Leader

### Don't Blame Men

The proportions of the brass-lad are not yet clear. There is no question about the proportions of the comment on the fad. They are king-sized. Newspapers are full of stories and editorials brimming with puns and double entendre. Even Dean Acheson, the distinguished former front man for the State Department, has been hooked.

The Washington Post got a rise out of Acheson by implying that men, among their exploitations of women as consumers, were responsible for the bra in the first (and second) place. Acheson wrote the Post indignantly:

"Even as a boy, looking at pictures of Boadicea, Brittan's warrior queen (circa A.D. 60) one could see that she wore a brass bra as protection against the Romans — where it still may be needed from what I hear. If armor has now been turned from defense to seduction, it was a woman who did it — and to perpetrate fraud on men. So far as the latter are concerned, women can, if they wish, go as topless as they are now bottomless."

That's the kind of straight-from-the-shoulder observation even an editorial writer can understand. — Charlotte (N.C.) Observer

## Would Preserve Scenic Rivers in Arkansas

LITTLE ROCK (AP) — The state committee on Stream Preservation has drawn up a bill to preserve scenic rivers in Arkansas. The group is hoping Gov. Winthrop Rockefeller will include it in any special legislative session he calls.

The proposal, which is similar to a Senate measure that failed to come up for a vote in this year's regular legislative session, would create a scenic rivers system in Arkansas.

Under the bill, a permanent state scenic rivers committee would be authorized to obtain permanent easements and to zone designated scenic rivers for 150 to 300 yards on either side of the banks.

The committee has recommended that the system include these streams:

— The Buffalo River in Newton, Searey, Baxter and Marion counties.

— The Kings River in Madison and Carroll counties.

— The Big Mulberry River in Johnson, Franklin and Crawford counties.

— The Eleven Point River in Randolph County.

— Big Piney Creek in Newton, Johnson and Pope counties.

## Soviet Space Hookup Was a Failure

By JOHN WEYLAND  
Associated Press Writer  
MOSCOW (AP) — The failure of Soviet cosmonauts to put together a space station on the three-day flight last week could result in a shift of emphasis back to unmanned flights.

The lack of any spectacular achievement by the seven spacemen seems to have put the proponents of manned flights on the defensive. They talk as if they are trying to stave off a return to the policy of extreme caution that followed the Soyuz 1 crash in April 1967 in which a cosmonaut was killed.

This tragic setback obviously shook the Kremlin badly and made it extremely leery of manned flights. The Soviet press took to extolling unmanned flights, saying they were just as useful as manned missions in obtaining scientific information and preferable because no risk of human life was involved.

The de-emphasis of the cosmonaut program took some of the sting from comparisons with what the United States was accomplishing with men in space during this period.

A more favorable attitude toward manned flights started to show after the successful flight of Soyuz 3 last October and the linkup of Soyuz 4 and 5 in January.

The Soviet leaders seemed reassured of the safety of manned flights and once again editorials brimming with puns and double entendre. Even Dean Acheson, the distinguished former front man for the State Department, has been hooked.

The Washington Post got a rise out of Acheson by implying that men, among their exploitations of women as consumers, were responsible for the bra in the first (and second) place. Acheson wrote the Post indignantly:

### Kremlin to Welcome Czech Chief

MOSCOW (AP) — The Kremlin prepared a big welcome today for leaders of Czechoslovakia's Communist party and government in a show of approval for their recent purge of liberal Communists.

Communist party chief Gustav Husak, who replaced liberal reformer Alexander Dubcek last spring under Soviet pressure, and President Ludvik Svoboda were scheduled to spend nine days meeting top Soviet leaders and touring the country.

## Today Requires Gadgets Galore to Stay Trim, Slim, Full of Vim

By JOY STILLEY  
NEW YORK (AP) — Once upon a time the only equipment needed for exercising was muscles. If a fellow really wanted to be ostentatious about his efforts to switch from a 96-pound weakling into Mr. America, he could buy a set of barbells.

But today it requires gadgets galore to stay slim, trim and full of vim. And department stores, sporting goods emporiums and mail order houses are willing to supply them.

If you want to start simply, there's a little board that swivels as you twist away those extra pounds. It costs only \$5.99 but you have to supply your own muscle.

For \$7.99 you can get a small wheel with a couple of handles on either end. Get down on your knees, hang onto the hand grips and roll away those rolls of flesh around your waist.

If you're not a do-it-yourselfer, by paying a bit more you can get another handy little item for firming up those midriff muscles. A weighted belt for \$19.99 is supposed to do the job for you, with no more effort on your part than fastening it on.

## Counter Offensive to Moratorium Launched by Administration

By THE ASSOCIATED PRESS  
Backers of Nixon administration Vietnam policy, led by Vice President Spiro T. Agnew, have launched a counter-offensive against effects of last Wednesday's Vietnam Moratorium and those planned for days ahead.

Agnew Sunday blasted leaders of the antiwar protest movement as "hard-core dissidents and professional anarchists" who are being encouraged by "an effete corps of impudent snobs who characterize themselves as intellectuals."

But like President Nixon's promise that he would not be affected by demonstrations against the war, Agnew's attacks were likely to spur Moratorium leaders to greater efforts.

"We think that it would be un-American and immoral to stop our actions now," said Jerome Grossman, a stationery manufacturer from the Boston suburb of Newton and one of the Moratorium's earliest organizers.

Sen. Barry Goldwater, R-Ariz., proposed in Long Beach, Calif., that Americans demonstrate in support of U.S. troops in Vietnam on Nov. 11—Veterans Day.

And Gen. William Westmoreland, former commander of U.S. forces in Vietnam, said Americans fighting men were disillusioned and disappointed by the Oct. 15 call for an immediate withdrawal from the southeast Asian country.

The vice president, apparently selected to be the administration's spokesman on antiwar protests, said last Wednesday's demonstrations served only "as an emotional purgative for those who feel the need to cleanse themselves of their lack of ability to offer a constructive solution to the problem."

"Unfortunately, we have not

## Three Killed on Arkansas Highways

By THE ASSOCIATED PRESS  
An Associated Press count shows that three persons were killed in traffic accidents on the Arkansas highways during the 54-hour weekend period.

The death count began at 6 p.m. Friday and ended at Sunday midnight.

A car-truck collision Sunday on U.S. 71 in Rogers claimed the lives of Martin Butz, 22, of Fayetteville and Debra Sue Thomas, a University of Arkansas student from Fort Smith.

Officers said the car collided head on with a semi-trailer rig.

The other weekend victim was Claude Richard Miller, 87, of Mountain Home. Miller was killed Saturday in a two-car collision on U.S. 62 about five miles south of Harrison.

been on a treadmill all day, the "executive jogger" is just the thing to make him feel at home — at home. He can jog away for hours on a bouncy pad with springs inside and never get anywhere.

Another method of expending a lot of effort while staying in the same place is an exercise bike—with adjustable seat and handlebars, pedals and a speedometer to measure the distance you haven't gone.

Even after you've stocked up on these gymnastic gizmos, there's one other thing to spend your money on. A plastic suit that seals in boxed heat so that you lose pounds while you exercise costs \$5.99. It's really a bargain, though, because one size fits all so you don't have to buy his and hers outfits.

And the outdoor jogger who actually piles up the miles when he runs doesn't get off free. For him there are jogging suits of varied colors, with matching sneakers.

My exercise, however, doesn't cost me a cent. I get all I want just running for revolving doors so I can go through on someone else's push.

## Sees Cutback in Defense Industry

WASHINGTON (AP) — Secretary of Defense Melvin R. Laird today forecast "a definite slowdown in the defense industry" over coming months as he reported Pentagon economy moves already are helping the administration's anti-inflation drive.

"We are confident on the basis of advance indicators that the major cuts we have made in programs and spending for fiscal year 1970 will have a substantial favorable effect on the Nixon administration's program to curb inflation," Laird said.

The defense chief's statement, distributed to reporters, was the Pentagon's way of getting on President Nixon's anti-inflation bandwagon.

The President last week appealed to housewives to hold down on personal spending, and today leaders of business and labor were mailed personal fight-inflation appeals from the White House.

Laird said Pentagon comptroller Robert Moot, after analyzing the economic impact of recent defense cutbacks, has reported several trends which should spell a "marked effect on inflationary pressures."

Laird recalled that he has cut \$4.1 billion from planned defense expenditures thus far this year, partially by authorizing a 220,000-man cut in military manpower and a 68,000-man reduction in the military services' civilian work force.

He also cited other less noticeable indicators, including:

— Total military prime contractor awards are the lowest

### Judge Delays Ruling on Defense Motion

In Hempstead Circuit Court Monday Judge W.H. Arnold III, took under advisement a motion by the defense of Dennis Turner, 19, charged with robbery of Larry Yates. The defense motion indicated the charge constituted double jeopardy.

Dennis Turner was tried and found not guilty of the Christmas morning murder of Larry Yates.

A motion by Richard Turner, also charged in the robbery of Yates, was granted. His defense asked that the trial be delayed until after the trial of Dennis Turner.

In other action Ira Lee West pleaded guilty to burglary and grand larceny and was given five year probation.

Court will reconvene on Nov. 17.

### Chicken Coop Damages Car

About 12:50 a.m. Sunday on Third Street a coop of chickens fell from a truck owned by Grover Thompson and struck a Volkswagen driven by William Knies of Mill Creek, Mo. The truck was driven by William G. Haynie of Lewisville.

The small car was severely damaged, according to investigating City Officer Jesse Brown.

No charge was filed.

## Banned Drug in Many Soft Drinks

CHICAGO (AP) — The major producer of cyclamate says 15 per cent of all soft drinks sold in the United States in 1968 contained the artificial sweetener which has been banned by the federal government.

Abbott Laboratories of North Chicago, which manufactured more than half the cyclamate used in this country, said Sunday it had stopped producing the sweetener "pending further discussions."

Millions of weight-conscious Americans will have to turn to new low-calorie nourishment. The artificial sweetener has been widely used in about \$1 billion worth of foodstuffs sold annually—not only soft drinks but canned fruits and vegetables, ice cream, cookies and diet mixtures.

A spokesman for Pillsbury Co. in Minneapolis said the firm would replace cyclamate with other sweeteners in its no-calorie and low-calorie lines.

One soft drink manufacturer — Pepsi Co. — announced that it would soon start marketing a cyclamate-free diet drink with only one-sixth the calories of Pepsi-Cola.

The Department of Health, Education and Welfare has banned the sale of cyclamate sweetened beverages as of Jan. 1, and of other foodstuffs containing the substance as of Feb. 1.

The department acted Saturday after receiving reports of two studies indicating that rats given big doses of cyclamate developed cancer.

Meanwhile, a Cambridge, Mass., scientist said that experiments showed large cyclamate doses injected into hamsters produced coronary disorders and death.

## Fund Drive Dedicated to Jim Pruden

Bill O'Neal and Barry Brown Co-Chairman of the 1970 United Fund Drive announced that a breakfast will be held at 7:30 October 21, 1969 at the Town and Country Restaurant.

This drive will be dedicated to the memory of the late Jim Pruden who in the past years had contributed many tireless hours of work to the Hempstead County United Fund Campaigns.

At the time of death Jim was past drive chairman and President of the Hempstead County United Fund. His wife has taken his place as President of the Hempstead County United Fund.

While he was drive chairman the goal was exceeded for the first time. It is anticipated that this year the goal will be reached again as a tribute to Mr. Pruden.

The Hempstead County United Fund is 10 years old this year. Most of the original group are still very active in the Hempstead County United Fund. Through the year the list of agencies participating in the fund has increased as has the goal. This year there is a goal of \$26,450.

There are now 17 agencies counting 5 national agencies that will not accept money, but have money set aside for use in Hempstead County by persons that need help but cannot receive it from the National Organization.

The amount set aside for operating expenses is less than 3 percent of the total goal.

The Division Chairmen that are expected to be in attendance at the breakfast are: Advance and Special Gifts, Ray Lawrence; Industrial, Harold Eakley; Hendrix Spraggins; Public Schools, Bob Whitmarsh; Will Rutherford; Retail, Forrest Singleton; James Morrow; Harry Hawthorne; Jimmie Griffin; Professional, Dr. Don Free; County and Municipal, Mrs. Pat House; Wholesale, J. B. Ingram; State Employees, J. W. Rowe; Ted Maryman; Finance and Insurance, Dick Moore; Residential, Joan Stephen.

## Unilateral Cease-fire Under Consideration by the President

By MARK BROWN  
Associated Press Writer

WASHINGTON (AP) — Amid increasingly voiced sentiment for a faster U.S. withdrawal from Vietnam, President Nixon reportedly is considering a unilateral cease-fire.

The President may propose the cease-fire during his Nov. 3 address to the nation on the Vietnam situation, a White House source said Sunday.

Indications Nixon may, in fact, have been affected by opposition to the war expressed in last Wednesday's Vietnam Moratorium piled up as the President spent the weekend huddled with his top military and diplomatic advisors at Camp David.

And former Vice President Hubert H. Humphrey, who last week emerged from a meeting with Nixon to endorse his Vietnam policy, said in Tokyo he is sure the United States will carry out "a systematic and accelerated withdrawal of U.S. forces" from South Vietnam.

Humphrey was among a number of prominent figures—in and out of the administration—who spoke out on Vietnam over the weekend.

According to Newsweek Magazine

## Nixon Vows to Stand by Haynsworth

WASHINGTON (AP) — President Nixon said today Judge Clement F. Haynsworth Jr. has been subjected to vicious character assassination, and even if the judge asked him to withdraw his nomination to the Supreme Court he would not do so.

Nixon took this stand at a one-topic news conference called hurriedly in his office.

He said he had gone over the complete record of the case of the man he tapped for the Supreme Court and all of the criticism and charges that have been raised.

He said he is standing by his judgment that Haynsworth should have the position.

And he said he is confident that if senators study all the documents and charges involved, enough of them will come to the same conclusion he has and will vote for confirmation.

Nixon said of Haynsworth: "I find Judge Haynsworth an honest man, a lawyer's lawyer and a judge's judge. I think he will be a great credit to the Supreme Court and I intend to stand by him until he is confirmed."

## Fighting Has Increased in Vietnam

By GEORGE ESPEY  
Associated Press Writer

SAIGON (AP) — Fighting increased sharply in the past 24 hours in Vietnam, with 197 enemy troops reported killed, but a U.S. spokesman said activity "is still at a relatively low level."

Seven Americans and six South Vietnamese were reported killed in seven clashes scattered across the country from the Mekong Delta to the coastal lowlands south of Da Nang. Sixteen Americans and 21 South Vietnamese were reported wounded.

The heaviest fighting raged deep in the Mekong Delta 142 miles southwest of Saigon. There, 400 South Vietnamese troops supported by American helicopter gunships reported killing 96 Viet Cong. It was the biggest battle of the year for the South Vietnamese.

The South Vietnamese said six of their men were killed and 16 wounded in the five-hour fight in the U Minh Forest, a swampy area of tall trees and undergrowth used by the Viet Cong as a major military base.

An American AH1 Cobra helicopter gunship was shot down and destroyed during the fighting and one crewman was wounded. Another U.S. helicopter was shot down and destroyed 30 miles northwest of Saigon, and again one American was wounded.

North Vietnamese troops bombarded a 50-man U.S.-South Vietnamese platoon with mortars before dawn Sunday 63 miles southeast of Da Nang, then attacked with rifles and rocket grenades. Five Americans were killed and five wounded out of the 14-man Marine squad in the platoon. Three government militiamen were wounded, and at least four of the enemy were reported killed.

**TURIN, Italy**—On a clear day, in this pleasant, busy former capital of united Italy, the spectacular snow-capped Alps stand as an enticing backdrop.

But since Turin is also the Detroit of Italy, the Alps are often hidden in thick, soupy clouds so familiar to residents of Los Angeles. Smog is not an American oddity.

And neither is traffic which, during rush hours, clogs the narrow streets and broad boulevards and makes the visitor wonder why he has traveled so far to find the same apparently unsolvable problems which afflict U.S. metropolitan areas.

"It is," says an official at the Fiat plant, "a necessary part of progress." That, too, sounds familiar.

With the exception of Venice (where city fathers have kept the city free of automobiles; motor boats and rising water are the problems there), Italian cities — from Milan in the north to Naples in the south — are slowly suffocating, "a necessary part of progress."

Because la dolce vita is within the grasp of so many Italians—more than enough has been said about the authentic economic miracle here—the time for suffocation is that much closer. Film-maker Federico Fellini made the ultimate statement in this regard several years ago, you may remember.

In "8½," the hero is first glimpsed trapped in a mind-bending traffic snarl near Rome in which nothing moves. The end of the world, perhaps? Jean Luc Godard made the same comment in "Weekend."

It is pretty much the same throughout Europe. Frankfurt, Stuttgart, Hamburg, Brussels, London, Stockholm, Paris: The price of progress is high.

In Italy, Fiat provides a good example of this sort of progress. The company (Fiat means "Fabbrica Italiana Automobili Torino") was founded in 1899 with only 50 employees; now the payroll numbers about 168,000 people.

Its giant Mirafiori plant in Turin covers the complete cycle of operations from the foundry to the finished mechanical product. Not even General Motors, the local behemoth, makes its own steel. In 1968, the company produced some 1.5 million passenger cars making it, next to Volkswagen, the largest automaker outside the United States.

While the U.S. market has always been important to Fiat, only recently has it been able to produce the sort of automobiles demanded by Americans. In the early '50s, it offered the smaller products which couldn't cope with American driving habits and, admitting defeat, all but pulled out.

Today, however, the company is moving up fast. In fact, the latest figures from R. L. Polk & Co. show that in August, Fiat had pushed aside Volvo to become the country's fifth largest-selling import.

Because the figures are interesting, they are shown here (January-August 1969):

1. Volkswagen 323,211
2. Toyota 70,860
3. Opel 65,341
4. Datsun 37,023
5. Fiat 26,374
6. Volvo 22,583
7. Mercedes 14,785
8. Cortina 13,671
9. MG 13,643
10. Triumph 11,429

Once, not too long ago, the figures were practically reversed and the two Japanese products, Toyota and Datsun, did not appear on anybody's list.

Fiat, it is clear, is not to be sneezed at, even by King of the Mountain Volkswagen.

But while the world plays the automobile numbers game and Fiat slugs it out with VW, the highways clog and the pollution smothers us, "a necessary part of progress."

## Draft Critics Say Youths to Be in Doubt

By JIM ADAMS  
Associated Press Writer

**WASHINGTON (AP)**—President Nixon's draft lottery system to bring out a talent among the country's 18-year-olds for figuring mathematical probabilities.

Critics say the plan will leave most young men guessing about just when they might be called the following year and their chances for escaping the draft entirely.

But armed with a few basic figures those guesses can get pretty close. And some men won't have to guess at all.

The plan for drafting 19-year-olds first on a lottery basis is likely to pass the House late this week. It is still an open question in the Senate.

The 365 birthdates for the following year would be drawn out of a fish bowl at a public lottery in late September or early October each year.

There's little guesswork for able-bodied men whose 19th birthdays fall on the first dates drawn: they'll be among the first men called early the next year.

And men with birthdays on the last 150 or more dates drawn will likely escape the draft entirely.

Everybody else will have to take out his scratchpad and pencil and start figuring the odds on the basis of the number of men in the draft pool and the rat at which they're being called up each month.

If the system were in effect now, as Selective Service officials explain it, 18-year-olds would figure there would be something like 600,000 available for the draft next year after rejects and deferments.

Draft calls hopefully will drop off to something like 200,000 from this year's 300,000 plus.

That would mean men with birthdays on the last 200 or so dates drawn in the lottery would likely escape the draft and those with the first 100 birthdates drawn would probably be called. The remaining 65 birthdates would be borderline cases.

The callups vary from month to month but a man who drew the 100th date could figure he'd be called near the end of the year, a man who drew 50 would probably be called about mid-year.

Students and technical people getting deferments would draw their draft eligibility placement for their 19th years like everyone else and would come back into the draft pool with that same placement when their deferments ended four years later.

All this is how the lottery system is to work when it is well established.

The first year, however, would be a transitory one in which all men between 19 and 25, not just 19-year-olds, would be subject to the draft under the system.

## State Plant Under Defense Dept. Probe

**LITTLE ROCK (AP)**—Federal agencies are investigating Selb Mfg. Co. of Walnut Ridge to see if it abused a Defense Department contract as alleged by a syndicated Washington columnist.

Jack Anderson, the columnist, has said in his column that plant abused a contract on the F11 aircraft by arranging to have an inspector approve weldings that did not meet specifications.

U.S. Labor Department Bulletin 1550-36, which can be obtained from the Superintendent of Documents, Washington, D.C. 20402, at a price of 10 cents, provides depth information.

State policemen are civil servants whose primary responsibility is to enforce the laws and regulations governing the use of highways. In some states, they also may investigate crimes, such as thefts, murders and narcotics violations.

While most of the 300,000 state troopers across the nation spend the great bulk of their time out on the highways, some engage in specialized work, such as fingerprint classification, chemical or microscopic analysis, instruction of trainees, piloting police aircraft or serving with special units, such as mounted police, canine corps and harbor patrols.

The largest force is in California, with about 3,000 officers; the smallest is in Nevada, with fewer than 100.

Opportunities for state police jobs are regarded as excellent for qualified applicants.

Employment is expected to rise rapidly through all of the 1970s. Most of the increase will be needed for highway patrol and related activities, but part will be needed in criminal investigation and other functions.

Because law enforcement is increasingly complex, future officers will need training in such areas as scientific criminal investigation and police administration. Some specialists will be needed in the expanding crime laboratories and electronic data processing centers.

State civil service regulations govern appointments. Other entry requirements vary by state, but usually applicants must be at least 21. Most states also require a high school education or an equivalent combination of education and experience.

Officers also must pass a competitive examination and meet physical and personal requirements. Often, tests of strength and agility are required.

Honesty, good judgment and sense of responsibility are especially important in police work. Thus, investigation of an applicant's character traits and background is necessary.

In all states, a training program extends over several months. Recruits receive classroom instruction in state laws and jurisdictions, study accident investigation, patrol, traffic control and other procedures. They learn to use firearms, defend themselves from attack, handle an automobile at high speeds, administer first aid and deal with other emergencies.

High school courses in English composition, reading comprehension, American history, civics and government, psychology, sociology and physics are helpful in preparing for a career in police work. Physical education and sports activities also are useful in developing stamina and agility.

As a general rule, recruits must serve a probationary period ranging from six months to two years or more. After specified periods of time, officers become eligible for promotion, and most states have merit systems.

Conferences with high school and Employment Service counselors are suggested along with interviews with state police officers in your area.

Added facts about the occupation of a policeman can be obtained by writing the International Association of Chiefs of Police, 1319 18th Street NW, Washington, D.C.

**Soviet-China Talks Make No Progress**  
By ANTHONY C. COLLINGS  
Associated Press Writer  
MOSCOW (AP)—Conflicting Soviet statements raised the prospect of no progress in the border talks with China starting in Peking today.  
Soviet First Deputy Foreign Minister Vasily V. Kuznetsov arrived in Peking Sunday and said, "We hope the talks will be

fruitful and will benefit our countries and peoples."  
But in Moscow, Mikhail Suslov, top ideologist and member of the Communist party's 11-man politburo, accused the Chinese leaders of an "adventuristic, chauvinistic policy."  
Kuznetsov's remarks in Peking and excerpts from Suslov's article in the party journal Kommunist were distributed Sunday by Tass, the official Soviet news agency. It did not repeat any remarks by Communist China's Deputy Foreign Minister, Chiao Kuan-hua, who welcomed the Soviet delegation to Peking.  
Negotiations to settle disputes over the long border between China and Soviet Siberia were broken off more than five years ago. The situation became tense last spring when shooting broke out at several points.  
Premier Alexei N. Kosygin made a surprise visit to Peking Sept. 11 and met with Premier Chou En-lai. Nearly a month later China announced agreement to open talks.  
Tass quoted Kuznetsov as saying the talks would involve "questions of interests to both sides." Some saw this as an indication that more than border issues might be discussed.  
Suslov did not mention the border talks in his article in the leading party theoretical and political journal. But he did make the sharpest anti-Chinese criticism to appear in the Soviet press since the Kosygin-Chou meeting.
